

## HQIC Mental Health Knowledge Exchange Network

What are the **objectives** of the proposed team?

- create a pan Canadian mental health network for health care providers, patients, families and researchers to improve the quality of mental health care
- this network will leverage the use of our existing health provider and patient network called Synapse

What are the **biggest challenges** your proposed team has to overcome?

- embedding our work into the daily workflow and processes of busy frontline health care workers.

[Anyone there?](#)

Which **organisations** are part of the team?

- Health Quality Innovation Collaborative (HQIC) is composed of approximately 1000 health care providers, researchers and administrators from a number of organizations including Family Health Teams, Cancer Care Ontario, Ontario College of Family Physicians, Ontario Medical Association and CAMH

How will your team **contribute to a transformation** in adolescent mental health in 5 years?

- we have developed a collaborative platform that is being used for shared care of the complex vulnerable patient between health care providers. We believe this same platform is ideally suited to use as a foundation for collaborative care in mental health
- with the use of our platform already embedded in the work of health care providers in Canada, we believe we have tackled the issue of adoption of this type of platform within the health care community.

**“Only together can we transform healthcare”**

Who are the **key leaders** in your team?

**Dr. Sanjeev Goel**  
Family Physician  
Founder

**Dr. Lopita Banerjee**  
Family Physician  
Wise Elephant FHT

**Andrew Hussain**  
Regional CIO

**Orren Johnson**  
IT  
Vibes Group

**Jaipaul Massey-Singh**  
Executive Director  
Wise Elephant FHT

What expertise, skills, resources, networks or infrastructure **could your team bring** as a network collaborator ?

- an established collaborative platform already embedded in health care organizations across Ontario
- the platform meets PHIPA requirements (PIA, TRA, and TVA have been completed)
- led by front line health care providers

Who should other interested groups **contact** to learn more about you? (include phone/ e-mail)
